FOR IMMEDIATE RELEASE

Citizen Adds Peripheral Solutions LLC to List of Value Added Resellers

TORRANCE, Calif. (June 1, 2015) – Citizen Systems America Corporation, a leading manufacturer of world-class printing technology, announces the addition of *Peripheral Solutions LLC* to its growing list of value added channel contributors.

Citizen Systems America continues to find key valued added companies to provide support and specialization to end-user level customers. The addition of Peripheral Solutions brings with it a strong partner who focuses on competitive replacement of aging technologies and provides high level professional resources that have a history of working with Citizen product effectively.

"While this partner will initially focus on specific replacement business, the capability to bring a long term horizontal value added strategy and contribution is just around the corner for Peripheral Solutions," says Vic Barczyk, Executive Vice President of Citizen Systems America.

"The new RJ-651 & RS-651 Point of Sale printers that were derived from Citizen's own CT-S651 are new plug and play products that replaces the TM-U950, P540, TM-T88 and RP-300 printers when installed on the Ruby/Sapphire, Topaz, Commander and Ruby 2 systems. This specific segment will be a large part of our initial strategy," said Greg Petit of Peripheral Solutions. He continued to add, *"We have every intention of providing even more solutions and benefits to the general market with these great Citizen products and our own knowledge of how to use them to improve general business everywhere".*

About Citizen Systems America

"Citizen Systems America" is the America subsidiary of Citizen Systems Japan - the electronic products affiliate of Citizen Holding Co. Ltd., Japan, the world renowned manufacturer of fine watch timepieces. Citizen headquarters is located in the greater Los Angeles area, California.

Citizen develops and markets Printers for point-of-sale, industrial solutions, photo and identification, barcode and label, portable and 80-column serial matrix applications. Citizen products provide Thermal, Impact and Dye-Sublimation technologies for packaged and OEM printer mechanisms that are used in a variety of industries including, retail, manufacturing, food service, healthcare, banking and many more.

For over four decades, Citizen Products have set the standard for performance, reliability and value in the marketplace. For more information, please visit Citizen Systems America's website at: www.citizen-systems.com.
