

## Curbside Ready

The way restaurants and retail shops conduct business has been radically transformed. In addition to delivery, consumers are looking for safe and secure options for remote pay and curbside pickup.

Citizen has responded to this demand and is proud to announce a partnership with Transaction Tree®.

All Citizen POS printers are now able to offer true two-way communication between merchant and customer that enables remote order & pay, order status, curbside pick-up, and more.

Best of all, the same platform can be used for promoting coupons, specials, and up-sells – all based on customer behavior.

***Citizen: It is more than a printer.***
