

Dotata di funzionalità per la stampa desktop industriale

Stampante desktop industriale

Velocità di stampa elevata

La stampa di una normale etichetta per i corrieri richiede solo un secondo, con una stampa praticamente istantanea della prima etichetta.

Alimentatore interno di lunga durata

Tutte le stampanti sono dotate di alimentazione di rete interna per garantire un funzionamento più affidabile ed evitare i problemi legati agli alimentatori esterni.

Termica diretta

I modelli CL-S521 sono termici diretti e possono utilizzare supporti inchiostriati, ma senza la necessità di nastro.
